

PRODUCTION-GRADE · MCP SERVER SUITE · SOFIA · 6F

Turn your Odoo into a *Claude* native citizen.

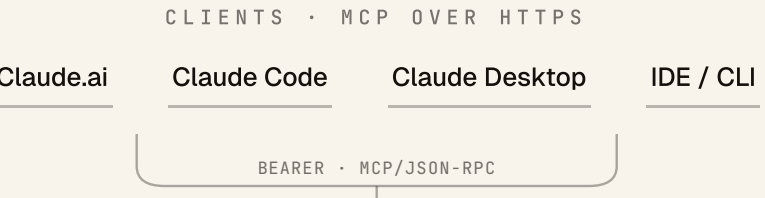

A self-hosted Model Context Protocol server suite that connects **Claude**, **Claude Code** and any MCP-compatible client to Odoo ERP, GitHub, filesystems, Kubernetes, Microsoft Teams and a browser-based terminal — all through a unified, authenticated gateway.

9 [★] MCP SERVERS	197 [†] MCP TOOLS	15→19 ODOO VERSIONS	AGPL-3 OPEN SOURCE
---------------------------------------	---------------------------------------	--------------------------------	-------------------------------

THE STACK

One *gateway*. Nine servers. 197[†] tools.

Any MCP client talks to one authenticated endpoint, inside, a fan-out of purpose-built servers handles Odoo, code, infra and controls.

Unified MCP Gateway · server.py

SERVER FAN-OUT

odoo-erp ERP CORE	ee-mcp ENTERPRISE	oca-mcp OCA ADD-ONS	github GIT OPS
filesystem SCOPED I/O	portainer DOCKER HUB	teams-mcp MS TEAMS	terminal BROWSER SHELL
PostgreSQL · Odoo DBs · Redis · sessions · K8s · replicas · Traefik · TLS Beaver · gRPC-Web			

01 / 03 Unified auth, multi-tenant. One Beaver token across every endpoint. Per-user profile isolation. Scores of Odoo databases switched on the fly.	02 / 03 Claude.ai connector ready. Public HTTPS endpoint. Beaver auth. Register as a Custom Connector in Team or Enterprise — done in minutes.	03 / 03 First-class BT support. iM4T, VMC, Intraface, Ofcassu, I. Maintained by the OCA/12th-bulgeria head.
